Bella Mente Montessori Academy

ELOP Expanded Learning Opportunity Program

The Extended Learning Academy is one of several state-funded Expanded Learning Programs (ELP) offered by the YMCA of San Diego County in partnership with the Bella Mente Montessori Academy.

The ELA Program will strive to ensure that all students are academically socially, culturally, and physically healthy. In collaboration with the YMCA of San Diego County, along with the Bella Mente Montessori Academy, children, and their families we will work together to assure that our program serves in promoting entire student development and lifelong learning.
